

Refrigerated Transport System

Pioneer Coldstore & Cladding Pvt. Ltd.

...Care, Commitment and Pioneer

www.pcclimited.org

Pioneer Cold Store and Cladding Pvt Ltd, was formed mainly with the objective of manufacturing Insulated Panels for Cold Store & Warehouses. The Management of Pioneer sensed the need for logistics in India in order to ensure the movement of food products across the length and breadth of India.

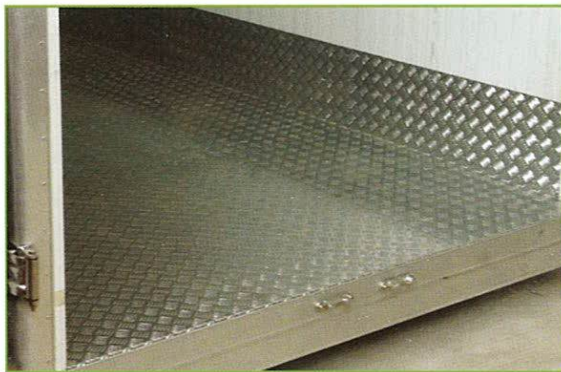

With more than 35 years of experience in producing of Insulated panels & executing various cold store installations across the Middle East, the promoters of Pioneer put up the Plant near Chennai. After the last three years of successful commercial operations in supply and installation of Insulated Panels, Pioneer felt the need for introducing its own range of Insulated Cabins for Trucks in order to provide a complete mobile cold store solution.

Rear Door Lock on Bottom

The main features& advantages of Insulated Cabins can be listed as follows:

- Modern Construction Technology
- Rigid Polyurethane panels of high Density used in Ceiling, Walls and floors with internally reinforced for better durability.
- Custom Made Sizes and Specification. The insulated cabins are custom built based on the requirement of the customers.
- Its “Light Weight” body enables achieving high-vehicle efficiency related to diesel consumption, tyre-life and overall vehicle maintenance.
- The doors are made with High quality imported Door Accessories to ensure 270 Deg opening.
- The Insulated Cabins are best suited for transportation of Food products, Medical needs & General Preserved Goods.
- The insulated cabins are fire retardant as per ASTM E84 & Classified as B2.
- Considering tough Indian roads, insulated cabins are reinforced internally and are made with No joints / Less joints for strong body and also designed for easy replacement of any damaged parts.
- Corners are protected with specially designed Aluminium Anodized Extruded profile for Strong and aesthetically pleasant design.

Pioneer is now equipped to give a complete Insulated Cabins solution for different applications and as always, Pioneer will be committed to the highest standards of Quality.

APPLICATION: Vehicle bodies to suit pickups, trucks, trailers and semi-trailers (upto 40 ft long) are manufactured by us according to customer requirement.

PANEL THICKNESS: 80mm to 150mm Thickness Suitable for +15 Deg to -40 Deg.

DOORS: The different kinds of doors for the insulated truck body are manufactured individually within our factory to meet specific client requirement. These include double or single leaf hinged door with 270° opening.

FLOORS: The internal flooring of the vehicle body is made using high grade chequered aluminium finish plates.

FINISH: PPGI , Plastisol Coated GI, Stainless Steel, GRP Facing, Wooden Finish & Chequered Aluminium (For Flooring Only) etc.
